## **AUTO ROULETTE**

*Fusion Auto Roulette* features a variety of your favorite roulette betting options, including picking the exact number the ball will land on. The pays range from even money to 35-to-1.

### **GETTING STARTED**

- Insert cash or ticket into the bill acceptor.
- When the countdown begins choose your chip value in the upper right corner of your touchscreen terminal. Once your selected chip value is highlighted, touch your preferred bet positions on the screen.
- For single numbers, red/black and even/odd bets, touch the center of the box.
- For corner bets and two-number bets, touch the line between the numbers. This also applies to other bets like columns or lines.
- To cancel a bet, press the clear button.
- To make the same bet as the previous game, touch the re-bet button.

**Note:** All bets must be made before the countdown meter reaches zero.

### **WINNING AND LOSING**

The ball is released before the timer expires. Once the winning result has been determined, all winning combinations will be displayed on the screen. All winning bets will be highlighted and wins will be added to your credit meter.
